

Scrabble Frames

These Scrabble Frames make lovely decorations for house-warming gifts, family trees, clocks, etc. They can be personalised with names and details to make unique presents.

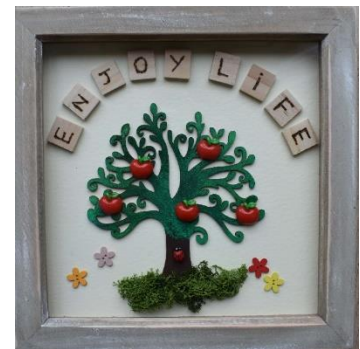

Family Trees:

A personalised family tree can make a lovely gift for many occasions e.g. Weddings, Christmas, etc. Even the family pet can be included with a fun embellishment! Here is a sample family tree but your own family names can be added. I burnt the letters into the back of Scrabble tiles of less used letters such as Qs, Js and Zs for the heading.

Statement Pictures:

Another option is to add a short quote to emphasise the important things to remember in life! These can be tailored to have elements included that suit the person receiving them such as a dog, cat or butterfly. The picture on right is in a 20cm x 20cm frame and so content is limited.

Home Sweet Home:

Another version of pictures using Scrabble lettering is one made for someone moving into their new home. Here the house number was added to the door to make it more personal. If you know the date of the move this could also be included.

The frame on the right has made use of the frame for the lettering for a different effect. The picture in the centre is again burnt onto the wood.

Embellishments:

I have a large range of different types of embellishments, as they are great for adding character, a bit of fun or something personal to a creative piece of work. I would suggest building up a collection of flowers, animals and having some dried moss is great for giving your pictures some texture.
